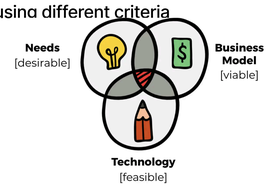
Competitor Analysis

This guideline helps you to build your visual appearance of your project. (based on figma's brand guidelines template)
Template, DIU - Competitor analysis (30/01/2023)
https://mgea.github.io/UX-DIU-Checklist/index.html

How to use the template

1. Start identifying competitors: name, logo and information (choose good competitors using different motivations)
2. Select features to be analyzed using different criteria



3. Check and rate features on competitors (yes/no/Maybe...). Try to be clear and objective
   ✅ ❌ ❓ ⭐⭐⭐
4. You can add Post-it notes (or comments) to be more precise in your analysis.
5. Add your personal opinion (subjective) as a conclusion, and choose which one is best for you.
   👍
